

I never thought i'd need the help
i'd gotten from all of you.

I was always the one who gave what
i could - never a second thought about it.

Then my life changed i was a person
in need - and i didn't know how to ask
for help - i was taken to your place -

you did not make me feel bad about
myself - all of you were kind - so very
helpful and to this day are still helping
me - get the basics in life to survive

You don't know my story why - and don't
judge - you don't know my pride - how
hard things are for me to ask.

Every one can say thank you
and i hope you all know when i say
it i really mean it.

I hope this note helps you know

Thank you - Thank you - see - see
